Life Science Research Introduction II

任課教師：楊嘉鈴、郭崇涵

Time: R6 (星期四 14:20-15:10)
Room: LSII R109 生命科學二館 109 教室

一、課程說明(Course Description)

本課程提供生科系的新鮮人一個認識生科院師長以及院內研究的機會，每一堂課邀請一位師長講述個人的求學工作史以及目前所從事的科學研究。期許修課的學生能深入瞭解『生命科學』的範疇與內容。課程共計五十分鐘，包含五至十分鐘的問答時間。

This course is aimed to give a general outline of Life Science by providing faculties' first-hand research experience. We invite one of faculty members in each class to share their personal stories in diligent pursuit of specific research topics. Speakers will talk about their school days and related professional training that led to where they are today, and will present specific research topics carried out in their laboratories. A 5-10 minute Q&A session is included to provide opportunities to dialogue.
