

LSMC 5353
96年度第一學期
細菌毒素研究

教師：王雯靜
時間：星期二 2:10pm~5:10pm
地點：生科二館113室

第 週	日 期	Topics
1	9/11	Introduction
2	9/18	Microbial virulence factors
3	9/25	<i>Helicobacter pylori</i>
4	10/2	Virulence factors of <i>H. pylori</i>
5	10/19	Vacuolating toxin
6	10/16	AB-type toxins and pore-forming toxins
7	10/23	<i>Bacillus anthracis</i> & Anthrax toxin <i>Bordetella pertussis</i> & Pertussis toxin <i>Corynebacterium diphtheriae</i> & diphtheria toxin
8	10/30	<i>Escherichia coli</i> & heat-labile toxin, verotoxin <i>Shigella dysenteriae</i> & shiga toxin <i>Vibrio cholerae</i> & cholera toxin
9	11/6	期中考
10	11/13	<i>Clostridium tetani</i> & tetanus toxin <i>Clostridium botulinum</i> & botulinum toxin
11	11/20	<i>Campylobacter jejuni</i> & cytolethal distending toxin
12	11/27	Pathogen-cell interaction
13	12/4	Phylogenetic perspectives in innate immunity
14	12/11	Secretion machines
15	12/18	Recent topics on bacterial virulence I
16	12/25	Recent topics on bacterial virulence II
17	1/1	Recent topics on bacterial virulence III
18	1/8	期末考
