

書報討論 – 凝態 – (10210PHYS595003)

Seminar – Fall, 2013

課程綱要:

We invite interdisciplinary researchers to share their fruitful research findings and experiences in the field of condensed/soft matter physics. It is an introductory seminar for students interested in experimental condensed matter physics, theoretical condensed matter physics, and soft matter/complex systems.

上課時間、教室:

This seminar is held on every Tuesday noon from 12:10PM-2:10PM (TnT5, 提供午餐*) at 綜三館四樓 4A 演講廳 or 物理館 620 教室. Please look up the following link or weekly poster for more information about the venue of the seminar. Please also register at the following link for a complimentary meal,

<https://docs.google.com/spreadsheet/ccc?key=0AhycgB1ei6f1dFg4SkkxWmFOazFmYT VmbTB6RXRza1E#gid=0>

評分標準:

Students will be evaluated based on three categories as explained below,

- **Class attendance (60%)**. Please remember to ***sign in and out*** for each class, and this accounts for 60% of your grade.
- **Class participation (20%)**. 20% of your grade is based on questions you raised during seminars. Please ***email your question along with speaker's answer to TA after each talk***.
- **Oral presentation (20%)**. Oral presentation at the end of the semester accounts for 20% of your grade. It is a good opportunity to practice your presentation skills and learn how to read through technical papers independently. Any subject related to condensed matter and complex systems is welcomed. ***Team presentation is encouraged (up to 3 students per group)***.
